

106TH CONGRESS
2D SESSION

H. CON. RES. 326

IN THE SENATE OF THE UNITED STATES

MAY 17, 2000

Received and referred to the Committee on Energy and Natural Resources

CONCURRENT RESOLUTION

Expressing the sense of the Congress regarding the Federal Government's responsibility for starting a destructive fire near Los Alamos, New Mexico.

Whereas on May 4, 2000, the National Park Service initiated a prescription burn on Federal land during the southwest's peak fire season;

Whereas on May 5, 2000, the prescription burn exceeded the containment capabilities of the National Park Service, was reclassified as a wildland burn, and spread to non-

Federal land, quickly becoming characterized as a firestorm;

Whereas by May 7, 2000, the fire had grown in size and caused evacuations in and around Los Alamos, New Mexico, including the Los Alamos National Laboratory, one of America's leading national research laboratories and birthplace of the atomic bomb;

Whereas on May 12, 2000, the President issued a major disaster declaration for the Counties of Bernalillo, Cibola, Los Alamos, McKinley, Mora, Rio Arriba, Sandoval, San Juan, San Miguel, Santa Fe, Taos, and Torrance;

Whereas the fire resulted in the loss of Federal, State, local, tribal, and private property;

Whereas the loss to private citizens of personal property and memories cannot be accounted for in monetary terms nor repaid with financial assistance; and

Whereas a full congressional investigation will assist the Federal Government to determine the cause of this disaster and its full cost to the Federal Government and the people of New Mexico: Now, therefore, be it
